

Dear Campers:

Welcome to our 2006 season. We're busy getting the grounds in shape for another fun year. Last year we added a nice game and video room to keep the kids occupied while you snooze by the campfire. Coming in early April is a nice state of the art playground for the youngsters that would rather be outside having fun instead of playing video games. And for you volleyball and horseshoe addicts, we will have regulation set-ups for you. Simply leave a deposit at the new office and you will get a volleyball or horseshoes. Your cash will be returned when you bring the items back to the office. Just like the equipment for the canoes. This year if the water stays up, you can enjoy awesome fishing on Hell Creek, which runs on the outer side of the Ranch.

Speaking of our new office...come and check it out. It's in the newly painted red barn that is across from the little stone office. We have a new ice cooler and an ATM machine for your convenience. Inside is a newly remodeled office and saddle shop and gift shop. We will offer t-shirts, sweatshirts, and other "Hell" Paraphernalia. Charcoal and some other camping supplies along with firewood will be purchased at this point. Hand crafted leather items from Cowboy Creek Saddle shop will also be available... key chains, wallets, belts, etc.

We pride ourselves in running a quiet and safe campground for your camping pleasure. If you get this letter that means you have been here before and we hope to see you again.

Happy Trails,
